HCI researcher & designer · user research, accessibility, interaction design, data visualization

I'm an HCI researcher and designer based in Amsterdam. I start from how people actually use technology, test ideas with them, and turn what I learn into clear, inclusive interfaces, data visualizations and working prototypes. My background is in cultural anthropology and digital humanities; I'm now doing an MSc in Human-Computer Interaction at the University of Amsterdam.

Experience

2025 - Present	Freelance Designer and Archive Specialist Web design and front-end development for cultural clients, such as the collection website for Teigetje & Woelrat, and archive digitization and cataloging, such as the Archivio Luki Massa.	Freelance
Jul 2025 - Nov 2025	UX Researcher/Designer at BrainBite BrainBite is a personalized ed-tech platform with one-to-one conversational AI tutoring for children. I researched UX patterns and best practice for neurodiverse learners, assessed interaction flows for neurodiversity support, proposed changes and built the iterations in Figma.	Full-time
Mar 2024 - Jun 2024	Visiting Research Fellow at the Institute of Network Cultures Practice-based research in digital culture and cultural analytics in Amsterdam. For the Viral Image Cultures project I developed an ontology of internet memes and designed and built an interactive interface to explore the dataset and the ontology.	Full-time
Mar 2024 - Jun 2024	UX Consultant at The Hmm Selected for Voices of Makers, with DEN (Cultural Knowledge Institute): mapping digital cultural spaces, exploring emerging technologies and co-developing strategies for the digital transformation of the Dutch cultural sector.	Funded program
Nov 2023 - Feb 2024	IT Support Specialist at Nina IT support for medical staff at the Fondazione ANT headquarters in Bologna.	Part-time
Sep 2023 - Feb 2024	Digital Literacy Educator at Nina Home visits helping older people use smartphones and online services and keep in touch with family and healthcare providers.	Part-time

Education

Aug 2026 - Present	MSc Information Studies, Human-Computer Interaction, University of Amsterdam In progress.
Oct 2022 - Jul 2026	MA Digital Humanities and Digital Knowledge, University of Bologna 110/110 cum laude. Focus on UX and web development, with data science, the semantic web and visualization.
Mar 2021 - Aug 2021	Erasmus exchange, Area Studies (IIAW), Humboldt-Universität zu Berlin Digital ethnography and interviews.
Oct 2018 - Mar 2022	BA Cultural Anthropology, University of Bologna Thesis on queer Muslim youth, through ethnography on social media.
